

EnroutAI

AI-powered dispatch — leads, loads, drivers, communication, and tracking on one screen.

Use the **left sidebar** to reach every page. After sign-in you land on the **Dashboard**. Bella AI helps with status, delays, follow-ups, and reply suggestions.

SIGN IN

1. Open the EnroutAI login page
2. Enter your work email → click **Send OTP**
3. Check inbox for the **6-digit code**
4. Enter code → click **Verify & sign in**
5. You arrive on the **Dashboard**

SIDEBAR — EVERY PAGE

Dashboard — KPIs, alerts, Bella	Leads — pipeline, promote	Load Management — docs, close
Load Tracking — map & route	Communication — email & WhatsApp	P&D Updates — ETAs & delays
Driver Management — roster	Configuration — company setup	Create Lead — new opportunity
Create Load — confirmed freight	Assign Load — match drivers	Scheduling — calendar
Recurring Loads — templates		

FIRST-TIME SETUP

Sidebar → **Configuration** — complete each section, click **Save & Continue**:

1. **Company Info** — business & fleet lot
 2. **Fleet** — trucks & trailers
 3. **Drivers** — roster (required)
4. **Broker Emails** — inbound offers
 5. **Documents** — compliance files
 6. **AI Automation** — Bella rules

Then confirm drivers in **Driver Management**.

HOW ENROUTAI HELPS

- **One inbox** — email, brokers, WhatsApp
 - **Smart assignment** — ranked by schedule & travel
 - **Bella AI** — summaries, delays, alerts
 - **Draft replies** — AI in conversations
- **Clear pipeline** — every stage tracked
 - **Live tracking** — map, ETAs, delay alerts
 - **Auto follow-up** — stage-based emails
 - **Critical alerts** — Dashboard flags urgency

CREATE A LEAD OR LOAD

Both wizards use the same 4 steps. Sidebar → **Create Lead** (opportunity) or **Create Load** (confirmed).

Step	Lead	Load
1	Lead Info — customer, source, stage	Load Info — customer, source, priority
2	Route & Stops	Route & Stops — dates & times
3	Package Details	Package Details — commodity, weight, trailer
4	Driver & Cost — rate & charges	Driver & Cost → submit

- Leads: no driver assignment; pick lifecycle stage; appears on **Leads** page
- Loads: skip pipeline; appears in **Load Management** after submit

Workflows & daily use

LEAD-TO-DELIVERY FLOW

Create Lead → Negotiate → Approve → Promote to Load → Upload Docs → Assign Driver → Track P&D → Close

Manage leads

Sidebar → **Leads** — filter by stage, priority, source. Click a row for details, chat, activity, financials.

When **Approved** or **Agreement Pending** → **Promote to Load**. Stage becomes Docs Pending.

Load management

Sidebar → **Load Management** — click a row for the detail panel:

- **Documents** — upload rate cons, BOL
- **Route / Financials** — full load info
- **Chat & Activity** — messages & history
- **Notify driver** — WhatsApp from panel
- **Close load** — mark complete

Assign a driver

Sidebar → **Assign Load** — load on left, ranked drivers on right.

Eligible loads:

- Stage: Docs Pending, Border Approval, or Ready to Assign
- No driver assigned; pickup still in the future

Drivers ranked by: schedule fit, travel time from last stop. Off-duty excluded.

Tracking & communication

- **Load Tracking** — map, route, stop progress
- **P&D Updates** — ETAs, delays; click card → Communication
- **Communication** — email, WhatsApp, Bella; AI replies; mark resolved
- **Recurring Loads** — templates for repeat lanes

YOUR DAILY ROUTINE

#	Page	What to do
1	Dashboard	Critical messages, pipeline; ask Bella about delays
2	Leads	Negotiate; promote when approved
3	Load Management	Upload docs; review route & financials
4	Assign Load	Match ready loads to best driver
5	P&D / Tracking	Monitor ETAs and delays on active freight
6	Communication	Reply to brokers & drivers; resolve threads

QUICK REFERENCE

Create freight: Create Lead (negotiate) or Create Load (confirmed)

Assign driver: Assign Load after docs uploaded

Track delivery: Load Tracking + P&D Updates

Reply to messages: Communication (or floating chat)

Setup company: Configuration (one-time)

Repeat lanes: Recurring Loads templates

You stay in control — AI suggests and automates repetitive work. You approve rates, choose drivers, assign loads, and close freight.
